

Happy Spring!

What's Cookin' at MTI

March 20, 2008

There good news this week. MTI in conjunction with EDV-TV has begun a new television series entitled 'Learning with the Chefs' "Learning with the Chefs" episode 1. The show will be on EDV-TV on Brighthouse channel 620 & Verizon channel 39 on Tuesday & Saturday at 8:00pm starting this coming Saturday 'til the end of next month.

Also the MTI East Campus will be opening after Spring break. There is a brand new cafeteria to be opened and set up. There will be some students from the Adult class and possibly the high school class involved with this new operation. The primary goals for the students are to learn to create exciting, healthy menus. Pricing items, ordering and receiving food. This will be a real life experience for them training as if it was their own business. More news as it becomes available.

Mr "C" is a wealth of information and says...."Despite the falling economy let's work hard at MTI to keep a chicken in every pot"

(<http://www.answers.com/topic/chicken-in-every-pot?nr=1&lsc=true>)

Last weeks question was...What starts with "t" ends with "t" and is filled with "t"?

- Answer (Martha Meyers was first) "T"ea po"T"*
-
- This week question is, What's green and a great trick shooter?*

- That's it for this week, I'm going to grab my umbrella and head out for the long week-end, of course with Easter coming to be sure I'll have to go home and....Cook Sumthin! You too!!!!
